

# OmniMind AI — Multi-Agent Executive Report

Workflow: **WS Test Workflow** | ID: be7b23ad... | Generated: August 09, 2026 10:33 UTC

## Workflow Objective & Goal

"Test WebSocket agent stream"

## Agent Execution Summary & Outputs

| Task Node           | Assigned Agent | Output & Action Taken                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
